

HELENA EBNER

How society makes a woman feel 2023/24

emulating Karin Mack

Project Description

Since I first understood the effects the patriarchy has on women, I was devastated.

To this day the perception of women is a topic dear to my heart because as a woman and feminist, equality is fundamental to me.

I chose Karin Mack for my emulation project because she portrayed how so many women feel.

For my emulation, it was important to illustrate how society makes a woman feel. This is based on my personal experience and the experiences of women close to me.
